

WHO WE ARE

The Minnesota Clean Cities Coalition (MC3), formerly known as the Twin Cities Clean Cities Coalition (TC4), is a nonprofit with 501(c)3 status. Since 2001, we have been working with fleets, equipment manufacturers, local, state, and federal government, nonprofits, and individuals to promote clean, domestic alternative fuels and advanced vehicle technologies.

WHAT WE DO

Minnesota Clean Cities has been instrumental in the creation of an expansive network of alternative fuel stations, the awarding of state and federal grants, and the education of public citizens. With the aid of public and private partners, we have displaced over 14 million gasoline gallon equivalents and prevented over 55,000 tons of greenhouse gas emissions. Each year we have increased these numbers through education and outreach efforts and developing partnerships for funding opportunities.
